PayStation Elite

The PayStation Elite combines print release, account loader and copy controller into a single unit. Perfect combination for charging and controlling for the use of copiers and printers.

Functionality

The PayStation Elite has a 7.5" Color LCD touch screen, can be equipped with a magnetic swipe, contactless, or barcode card reader for authentication purposes. Communication security is enhanced with SSL certification over the network. Once the user is authenticated, the print or copy transaction is processed, charged for and logged. The print job is then released or the copy function enabled and the transaction balance displayed.

Once the user has authenticated money can be deposited into their PaperCut account or funds can be used to pay for current transaction.

Credit/debit card acceptance is achieved using an integrated system based on cellular technology.

The intuitive touch screen can support custom branding.
